

ULTRAMET™ WR **METALLIZED POLYESTER FILM**

Metallized One Side, Corona Treated Other Side
Improved Metal Adhesion and Water Resistance

A surface or reverse printable biaxially oriented polyester film exhibiting bright foil appearance. For demanding applications that require ultra-high metal to PET adhesion, great water resistance properties, consistently good handling properties, heat stability, slip, and high tensile strength for easy lamination. Excellent WVTR, OTR, and light barrier properties.
