

CAMCLEAR® & CAMSHIELD® T

Clear, high barrier aluminum oxide coated polyester

Camclear® and **Camshield® T** with its chlorine-free barrier coating is an environmentally friendly option when compared to PVdC coated polyester.

Exhibits excellent clarity and haze values and enhances the look of the product, for increased “shelf appeal”.

Printable and suitable for food packaging.

High oxygen and moisture barrier for improved product shelf life.

Available in 36, 40 & 48 gauge resulting in higher yield than PVdC and increasing machine efficiencies.

Camclear®

	40 g	48 g
OTR cc/100in ² /24 hr.	0.19	0.19
WVTR g/100in ² /24 hr.	0.10	0.10

Camshield® T AlOx Polyester

OTR cc/100in ² /24 hr.	48 g 0.096
WVTR g/100in ² /24 hr.	0.065

Typical Applications: Fresh food packaging, confectionery, snacks, retortable applications, bag-in-box, dried foods.

Camclear lidding application
