ZONEMET® STRIPE METALLIZATION CAPABILITIES

INFORMATION REQUIRED
Please provide a drawing with metal and clear stripe dimensions. Please specify unwind direction, metal wind side and stripe width tolerances. Refer to diagrams on page 2 for further information.

STRIPE CAPABILITIES
Maximum web width: 2,032 (80")
Minimum clear stripe width: 25mm (1")
Minimum clear stripe to clear stripe distance: 38.1mm (1.5")

STRIPE TOLERANCES
Minimum Tolerances:
- Clear stripes = +3 mm (0.12"), -2 mm (0.08")
- Metal stripes = +2 mm (0.08"), -3 mm (0.12")
- Tolerance on overall FGI width = +3mm (0.12"), -2mm (0.08")

LEAD TIMES
The lead time to order the required tooling materials for each design is 3-4 weeks. Please call 416-333-6792 or email veronica@celplast.com for further assistance.
