ZONEMET® STRIPE METALLIZATION

INFORMATION REQUIRED

Provide a drawing with dimensions and FGI roll profile. Specify unwind direction, metal side and tolerances.

STRIPE CAPABILITIES

Maximum web width: 1,270mm (50")

Minimum clear stripe width: 25mm (1")

Minimum clear stripe to clear stripe distance: 38.1mm (1.5")

STRIPE TOLERANCES

Minimum Tolerances:

- Clear stripes = $+3 \text{ mm } (0.12^{\circ}), -2 \text{ mm } (0.08^{\circ})$
- Metal stripes = $+2 \text{ mm } (0.08^{\circ}), -3 \text{ mm } (0.12^{\circ})$
- Tolerance on overall FGI width = +3mm (0.12"), -2mm (0.08")

LEAD TIMES

The lead time to order the required tooling materials for each design is 3-4 weeks. Please call 416-644-3508 or email veronica@celplast.com for further assistance.
