

# ULTRAMET®

## High Adhesion and Water-Resistant Metallized Polyester

Your solution to metal adhesion, lamination, and barrier challenges is encompassed in the **ULTRAMET®** line-up of polyester films.

Metallized polyester films with **ultra-high metal adhesion, certified to 1000 g/in** metal to the polyester bond.

Intended for use in high-barrier food packaging, liquid packaging, and critical tube applications.
