Contract pricing for film testing

All pricing is in USD

OTR: Standard films or laminations: \$199.00

Films or laminations >5 mil thickness, or containing foil or metallized film: \$299.00

Sample testing carried out in duplicate.

Can be carried out at any temperature from 23 – 40°C.

Can be carried out at any RH from 35 – 80% or dry.

Test results to be reported at equilibrium, up to 72 hours maximum.

WVTR: Standard films or laminations: \$199.00

Films or laminations >5 mil thickness, or containing foil or metallized film: \$299.00

Sample testing carried out in duplicate.

Can only be carried out at 37.8°C, 90%RH.

Test results to be reported at equilibrium, up to 72 hours maximum.

Metal Adhesion: Metallized films or laminations: \$199.00

Samples are heat sealed to EAA/paper/foil laminate at temperatures ranging from 180-300°F and 30-40psi.

10 test strips will be measured per sample.

Emissivity: Metallized films or laminations: \$400.00

Sample testing carried out in triplicate.

ASTM D3310 Corrosion Testing: Films or laminations: \$400.00

Samples are exposed to 100%RH and 71°C for 7 days.

Sample testing carried out in triplicate.

Notes:

1. Celplast Metallized Products can test film samples only. We do not have package testing capabilities.
2. Testing is guaranteed to be complete within 10 working days of receiving up to 3 samples. For more than 3 samples submitted at the same time, please contact us to work out suitable timing.
3. For samples containing metallized film in development with Celplast, pricing can be discussed on a case-by-case basis.
4. Pricing is subject to change on a quarterly basis. Please get an updated quote when you are ready to submit your order.

Please contact us if you have any questions.
