

DURAMET®

Metallized & Top-coated High Barrier Films

A New Level of Barrier

DURAMET®

- Top-coating on metal for exceptional moisture and scuff resistance
- Improve barrier by as much as 10-fold vs metallized film
- Opportunity to remove a layer and reduce carbon footprint
- Achieve results on your substrate of choice.

Typical Barrier Values of DURAMET® Polyester

Oxygen Barrier < 0.01 cc/100in²/24 hr.

Moisture Barrier < 0.01 g/100in²/24 hr.

Metal Adhesion > 300 g/in
