STRIPE METALLIZATION

INFORMATION REQUIRED

Provide a drawing with dimensions and FGI roll profile. Specify unwind direction, metal side and width tolerances.

STRIPE CAPABILITIES

Maximum web width: 1,448mm (57")

Minimum clear stripe width: 25mm (1")

Minimum clear stripe to clear stripe distance: 38.1mm (1.5")

STRIPE TOLERANCES

Minimum Tolerances:

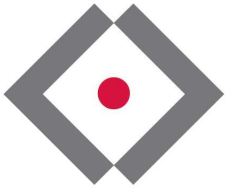

- Clear stripes = +3 mm (0.12"), -2 mm (0.08")

- Metal stripes = +2 mm (0.08"), -3 mm (0.12")

- Tolerance on overall FGI width = +3mm (0.12"), -2mm (0.08")

LEAD TIMES

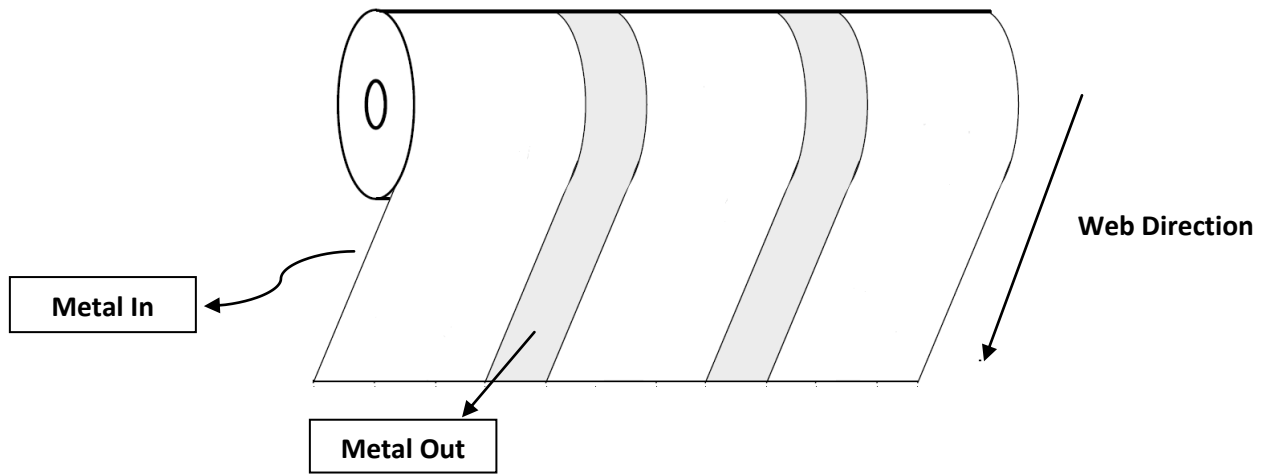

The lead time to order the required tooling materials for each design is 3-4 weeks. Please call 416-333-6792 or email veronica@celplast.com for further assistance.
