

# FOILMET™ & FOILMET™ PLUS

## Better than Foil

### Why **FOILMET & FOILMET PLUS**?

- ◆ **Reduced costs:** higher yield, less material waste, less adhesive
- ◆ **Less foil pin-holing and flex cracking**
- ◆ **Exceptional oxygen and water vapor barrier**
- ◆ **Faster heat sealing speeds**
- ◆ **Higher productivity**
- ◆ **Better shelf appeal**
- ◆ **7 day lead time** to meet customer demand and lower inventory costs

### **FOILMET™ PET**

Metallized Polyester Film

Corona Treatment opposite the metal side

#### **Barrier Properties:**

**Moisture Barrier:** < 0.04 g / 100in<sup>2</sup> / 24 hr.

**Oxygen Barrier:** < 0.03 cc / 100in<sup>2</sup> / 24 hr.

### **FOILMET™ PLUS PET**

Metallized Polyester Film

Corona Treatment opposite the metal side

#### **Certified Barrier Properties:**

**Moisture Barrier:** < 0.02 g / 100in<sup>2</sup> / 24 hr.

**Oxygen Barrier:** < 0.02 cc / 100in<sup>2</sup> / 24 hr.

Use **FOILMET™** and **FOILMET™ PLUS** in foil replacement in barrier critical applications such as:

- **Dry Powder Pouches**
- **Bulk Liquid Packaging**
- **Cereal Bowl Lidding**
- **Coffee Vacuum Brick Packs**
