

REFLECT-MET® PET /Poly coated **Metallized & Top-Coated Polyester** **with poly coating**

Top-coated **REFLECT-MET® PET**
Facer film with **Poly Coating** on the non-
metallized side

- ◆ Emissivity of 0.05
- ◆ **Corrosion resistance:** meets ASTM D3310 requirement (7 days at 71 C, 100% RH) corrosion protection requirement on metal surface.
- ◆ Coating exhibits good temperature resistance.
- ◆ Excellent vapor retarder.
- ◆ Passes ASTM E96 perm test after 28 days at 49 C 95%RH (ASTM C1258) at .235 perms.
- ◆ Destruct bonds of poly to the polyester.
- ◆ Excellent foil-like appearance.

Applications: includes all types of building insulation and other protective applications.
